For all other questions/inquiries, contact Dori Larea at 786-768-6111 or dori@nexploreusa.com

Nexplore Games is an innovative program that uses internationally-acclaimed strategy and mind games to enhance 21st century life skills and teach students how to think, rather than what to think. Nexplore Games is the bridge that connects the world of games to the real world. Using our methodology, students reflect and learn meta-cognitive models, which are then applied to all walks of life and scholastic achievements.

- **Play** - First, students learn a cutting edge strategy game. Every class, a different game is introduced and explored.
- **Learn** - Second, students learn game strategies and underlying thinking concepts to improve their game skills and metacognition.
- **Apply** - Finally, students are guided to make connections and applications to the real world.

Students have a blast playing games while learning imperative life skills to prepare them for the complex challenges of the 21st century.

Nexplore's mission is to foster the **Joy of Learning** through enrichment opportunities so that each child may discover and explore a passion that drives him or her to excel.

Nexplore company is a private organization not affiliated with Broward County Public Schools or Beachside Montessori Village.
