

Saint Anthony Catholic School Acceptable Use Policy (“AUP”)

All students and parents are required to sign and return an Acceptable Use Policy regarding use of the Internet (see the following).

Saint Anthony Catholic School is committed to student use of technology as a tool to expand learning opportunities and conduct scholarly research. The use of technology facilitates global collaboration--a vital skill for our 21st century learners. Students at the School utilize iPads on a wireless network. iPads and the wireless network on the school's campus are strictly for educational use consistent with the school's educational goals. Along with this opportunity, comes responsibility. This Acceptable Use Policy is designed to give the student and the student's family, as well as others on the School's campus, clear and concise guidelines regarding the appropriate use of iPads. The underlying premise of this policy is that all members of Saint Anthony Catholic School's community must uphold the values of honesty and integrity. We expect our students to exercise good judgment and to utilize technology with integrity.

The use of computers and internet access at Saint Anthony Catholic School is a privilege, and I agree to abide by the following rules:

- Use of the internet is for educational purposes only.
- The act of entering an area on the internet not related to educational purposes is a deliberate choice, and shall result in disciplinary action.
- If an inappropriate site is entered during a search, it must be immediately reported to the supervising adult
- User ID's and passwords should be kept confidential, and not shared with any other students.
- E-mail correspondence is allowed only when permission is granted by a teacher.
- Instant Messaging, plagiarism, copyright infringement, use of inappropriate websites or materials, and disclosure of any personal information may result in suspension or expulsion.
